

Master IESE – S2

STM32: Package Installation

Pr. Yahia MAZZI

Installation of the STM32F4 package :

1. Creating a MyST Account:

Register on the official STMicroelectronics website to create a MyST account..

<https://my.st.com/cas/login>

2. Download and Install STM32CubeIDE

<https://www.st.com/en/development-tools/stm32cubeide.html>

New user?

myST brings you a set of personalized features:

- Participate to ST Events
- Stay informed with ST eNewsletters
- Get help with ST Online Support
- Discuss on the ST Community
- Benefit from our Online Design Tools
- Download Software
- Order free samples
- Manage your weekly product updates
- Buy ST Products & Tools

Get Software

Part Number	General Description	Latest version	Download	All versions
+ STM32CubeIDE-DEB	STM32CubeIDE Debian Linux Installer	2.0.0	Get latest	Select version
+ STM32CubeIDE-Lnx	STM32CubeIDE Generic Linux Installer	2.0.0	Get latest	Select version
+ STM32CubeIDE-Mac	STM32CubeIDE macOS Installer	2.0.0	Get latest	Select version
+ STM32CubeIDE-RPM	STM32CubeIDE RPM Linux Installer	2.0.0	Get latest	Select version
+ <u>STM32CubeIDE-Win</u>	STM32CubeIDE Windows Installer	2.0.0	Get latest	Select version

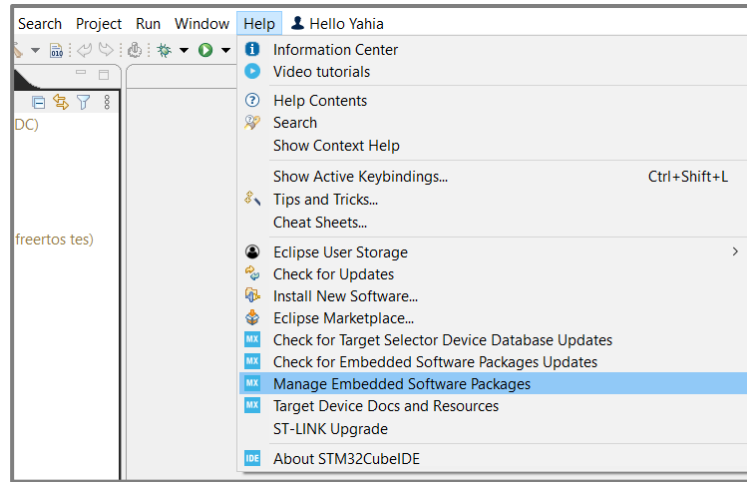

3. Logging into MyST Account::

- Open STM32CubeIDE and click on the MyST tab.
- Enter your login credentials (email and password of your MyST account) to sign in.

4. Installing the STM32F4 Package:

- Open STM32CubeIDE.
- Navigate to: **Help** → **Manage Embedded Software Packages**.

- Scroll through the list of microcontroller families until you find **STM32F4**.
- Check the latest available version (**1.28.3**).
- Click **Install** to start downloading and installing the package.
- Repeat the same process in order to work with the **STM32F7** board.
